

Awareness through Street Play

Awareness through cultural forms is always very effective. Among different cultural forms, street play is an important form that can spread the messages very easily in common mass. For the last many years Pollution Control Board, Assam has produced many street plays on different environmental issues involving experienced cultural teams. These plays were mainly enacted in the Guwahati City. Some visuals of the street plays are given below -

Moment of few Street Plays arranged by PCBA on different Environmental Issues for public Awareness
